Dear Mr. Ashcroft,

I support the position that the US courts are wasting much money in there attempt to prosecute Microsoft. I do not believe it is a good use of tax payer monies. I further believe it has a negative effect on the computer software industry, and the US economy. I think that competition could create, and has the ability to create alternative software and platforms, and are not bound to Microsoft in any way. With the growing popularity of other platforms such as Linux, I believe that this lawsuit is a mute cause. Please help end this wasteful use of tax monies any way you are able. Thank you and your staff for your time and concern in reading my opinion.

I am very happy to have you in DC, and know you are the best choice Our President could have made.

Sincerely,  
Robert Sirignano
